To whom it may concern,

I hereby state that during recent years **Dr. Maria Teresa Gamboa Medina** has translated several articles from Spanish into English, and from English into Spanish, about political, religious, scientific and social topics.

Her work is accurate and professional. She takes care of all details over it.

I have known her for more than 40 years and she is a responsible and a qualified translator, therefore, I have no doubt in recommending her in this field.

Sincerely yours,
